

Assembly Instructions for Your Foldable Crash Mat

Thank you for choosing our Foldable Crash Mat! Follow these simple steps to set up your mat safely and efficiently. If you're satisfied with your purchase, we'd greatly appreciate a positive review!

- **Open Carefully:** Use caution when cutting the plastic packaging to avoid damaging the vinyl cover or foam cushions.
- **Start with the Vinyl Cover:** Open the vinyl cover packaged around your foam pads first.
- **Prepare the Vinyl Cover:** Lay the vinyl cover flat on the floor, ready to receive the foam mats.
- **Open Foam Mats Carefully:** Note: The mats are compressed under pressure, similar to a foam mattress.
- **Insert First Foam Mat:** Immediately place one foam mat into one end of the vinyl cover and zip it up. Act quickly, as the foam will expand over time, making insertion harder. If it expands too much, you may need a second person to assist.
- **Insert Second Foam Mat:** Open the second foam mat and quickly place it into the other end of the vinyl cover.
- **Ready to Use:** Your mat is ready for immediate use, though the foam may take 10-14 days to fully expand.
- **Need Help?** If you encounter any difficulties, call our Customer Service team at **866-416-6388**. We're happy to assist!

Thank You! We truly appreciate your business. If your Foldable Crash Mat meets your needs, please consider leaving us a positive review.
